PROFESSIONAL SUMMARY

Artificial Intelligence & Machine Learning undergraduate seeking to work in an innovative company to utilize my skills for mutual growth.

EDUCATION

Atria Institute of Technology, Bangalore

- B.E in Artificial Intelligence & Machine Learning

2023 - 2027

CGPA: 9.4

St. Anne's PU College, Sira

- Class XII

2021 - 2023

Percentage:94.83%

TECHNICAL SKILLS

- **Programming** : Python, C.
- **AI / ML** : Machine Learning, Artificial Intelligence.
- **Web Development** : HTML, CSS, PHP.
- **Databases** : MySQL, MongoDB.
- **Tools** : Git, GitHub, Tableau, Power BI.
- **Core Concepts** : DSA, DBMS, OOP with Java, Operating Systems, Computer Networks, NLP.

PROJECTS

Smart Dog Skin Disease Detector (AI / ML Project)

- Built an EfficientNetV2S-based model for canine skin disease detection, achieving 92.5% accuracy through optimized preprocessing and data augmentation.
- Developed a Streamlit-based app for real-time image prediction (<2s) and added chatbot and vet-locator features for easier user interaction.

Object Detection System (Computer Vision Project)

- Built a real-time object detection system using Python and OpenCV detecting 10+ classes with ~90% accuracy.
- Optimized frame processing to maintain 20–25 FPS live webcam inference.
- Implemented text-to-speech output to support visually impaired users.

Resort Management System (DBMS Project)

- Designed a PHP & MySQL-based booking system managing 100+ records using normalized relational schema.
- Automated CRUD operations, reducing manual booking effort by ~60%.
- Implemented validation logic to prevent booking conflicts.

Doctor Appointment Booking System (Web Development Project)

- Developed a full-stack booking platform using PHP, MySQL, HTML, CSS, and JavaScript.
- Reduced booking errors by ~40% through frontend and backend validation. Designed database structure supporting 100+ concurrent bookings with schedule conflict detection.

CERTIFICATIONS

- Infosys Springboard - Programming in C, Python, Java
- TATA (Forage) - GenAI Powered Data Analytics Job Simulation
- Oracle University - Oracle Cloud Infrastructure Certified AI Foundations Associate
